SCRAP TRIDENT

We, the undersigned, welcome the UK government's renewed commitment to multilateral nuclear disarmament as stated at the recent nuclear Non-Proliferation Treaty Review Conference, but regret the UK's continued possession of nuclear weapons. To end this contradictory position we call upon the government to:

- Start the process of dismantling the existing Trident nuclear weapons system
- Cancel plans to replace it
- Work with other governments to get started on negotiating a Nuclear Weapons Convention to ban nuclear weapons world-wide, as chemical and biological weapons have been banned.
